

Create a new directory and name it “LAB-1_CLI”:

```
C:\Users\foooo>mkdir LAB-1_CLI  
C:\Users\foooo>|
```

Go inside the “LAB-1_CLI” directory:

```
C:\Users\foooo>cd LAB-1_CLI  
C:\Users\foooo\LAB-1_CLI>
```

Create a new file “whoAmI.txt”:

```
C:\Users\foooo\LAB-1_CLI>cd >> whoAmI.txt
```

Open the new file, and write an introduction about yourself.
Then save the file:

```
C:\Users\foooo\LAB-1_CLI>echo My Name is Fahad Alsaadi, my major is data science >> whoAmI.txt  
C:\Users\foooo\LAB-1_CLI>|
```

Show the content of the whoAmI.txt file:

```
C:\Users\foooo\LAB-1_CLI>type whoAmI.txt
C:\Users\foooo\LAB-1_CLI
My Name is Fahad Alsaadi, my major is data science
C:\Users\foooo\LAB-1_CLI>
```

Create a directory and name it “DS”:

```
C:\Users\foooo\LAB-1_CLI>mkdir DS
C:\Users\foooo\LAB-1_CLI>|
```

Go inside the “DS” directory.:

```
C:\Users\foooo\LAB-1_CLI>cd DS
C:\Users\foooo\LAB-1_CLI\DS>
```

Create a new file “toDelete1.txt” with the following text
“hello everyone”:

```
C:\Users\foooo\LAB-1_CLI\DS>echo hello everyone >> toDelete1.txt  
C:\Users\foooo\LAB-1_CLI\DS>
```

Create another file “toDelete2.txt”:

```
C:\Users\foooo\LAB-1_CLI\DS>cd >> toDelete2.txt
```

Go outside the current folder. Back to the “Lab-1_CLI”
directory:

```
C:\Users\foooo\LAB-1_CLI\DS>cd ..  
C:\Users\foooo\LAB-1_CLI>
```

Delete the directory “DS” and all the files inside it.:

```
C:\Users\foooo\LAB-1_CLI>rmdir /s DS  
DS, Are you sure (Y/N)? Y  
C:\Users\foooo\LAB-1_CLI>
```
